Company Introduction

Fanyo Carpets was established in 2014, and its production unit is located in Sihui City, Guangdong Province, covering an area of 5400 square meters. The management is possessed with more than 30 years of experience in the industry. We are focusing on high-end hand-tufted carpets design, research and development, production.

We have a complete and perfect production and quality control system and staff training system with Fanyo International Trading as its international trade department.

Currently we have more than 200 full-time tufters, workers in other procedures and QCers. We have a complete rug manufacturing process including artwork development, sample making, bulk order making and delivery. We will take care of everything as long as you tell us how you want your carpets.

We continue to study and analyze the global market, deepening the understanding of carpets and rugs and development trends.

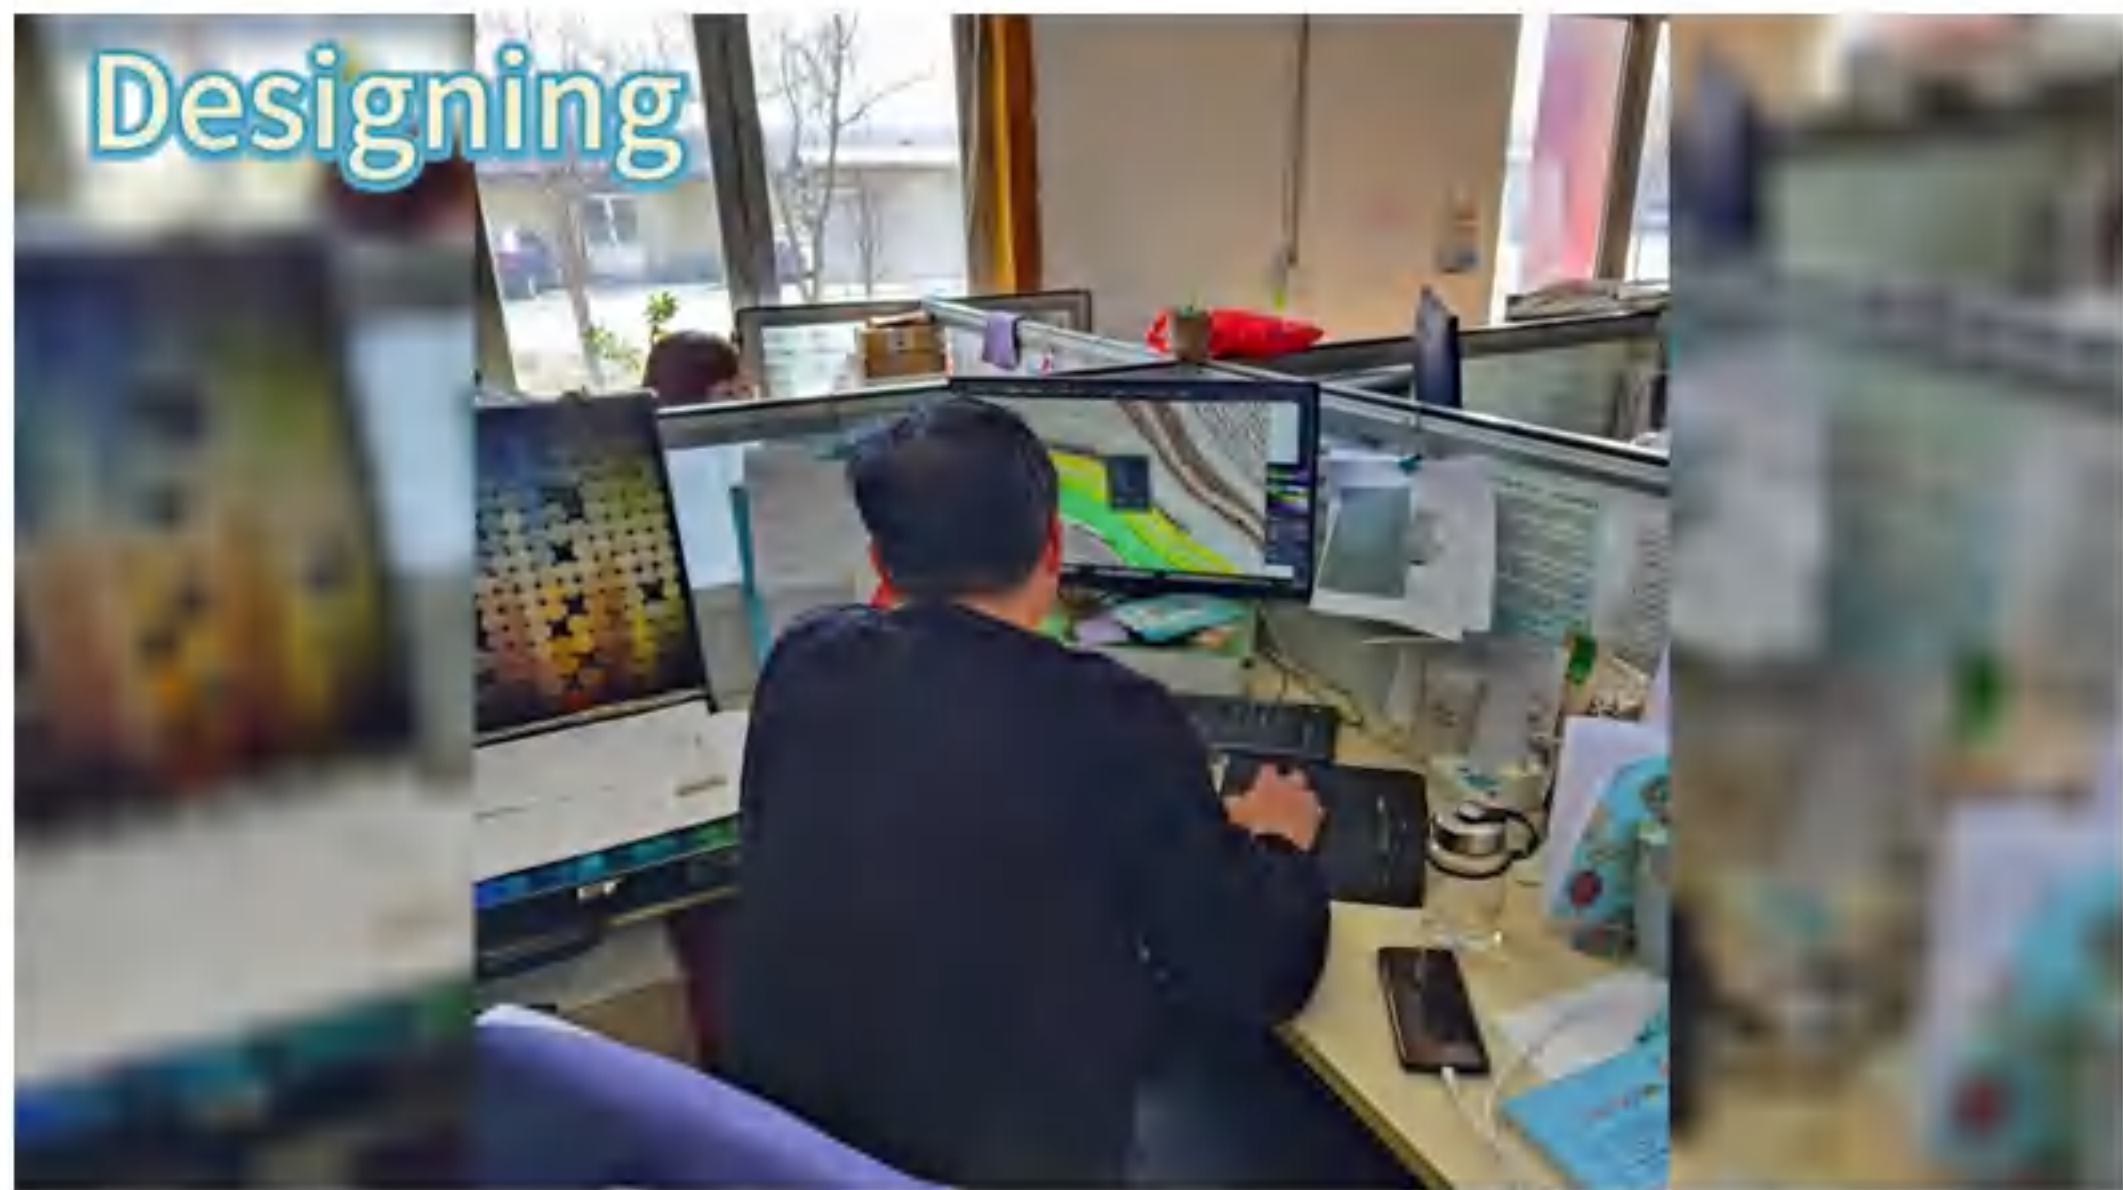

So far, our products have been exported to more than 50 countries around the world.

Strong research and development capability, stable production level and quality control system, excellent communication services make us win the praise of customers at home and abroad.

We have been striving to become the top hand-tufted rug and carpet manufacturers, producing good quality, cost-effective products, to provide customers with professional services.

A trust-worthy rug and carpet consultant on your side. We sincerely look forward to working with you!
